

Mysteries of your Birth

An Imprint Reading

--- Katherine Torres

In our Spiritual philosophies that are birthed out of Mysticism, information comes forward to comprehend the enigma of Life. We know by this wisdom that we have a Pre-Birth experience: a time in the ethers; a space and event of living and planning for the next incarnation into matter. Then at the right time, right moment of the event of Conception our journey from non-matter begins. Imprints of Conscious Intent, lessons to be learned, all begin unfolding.

This reading is a Once in a Lifetime Reading (meaning, you only have to do it once). Inspired by WomanSpirit in May 12, 2008, this additional piece of our Puzzle of “Who We Are and Why We do What We Do?”, comes together.

There are twelve steps to follow, through four thresholds of experiences. These twelve steps can be uncovered through Divination Tools. In this reading the Divination Tool being used is the *Faces of WomanSpirit, A Celtic Oracle of Avalon*. If you don't have this deck of cards (which you can obtain on the website Store page <http://facesofwomanspirit.com/store.php>), you may want to use a Divination tool that you are familiar with and strongly connected to the *Spirit of the Tool*. Simply follow the same steps as I suggest.

The first state of consciousness you want to embrace before choosing the cards is a Reverent Intent and a desire to be connected with Source, your Soul and the Mysteries of your Birth. Create a prayer or affirmation that announces to the Universe that you have an intent to uncover another layer of the mystery of yourself. Then be still for a few minutes allowing your personal mind to expand and be one with the Higher Mind and the Place of Consciousness That Knows!

Keep your intent clear and focused on the sacred release of information as you concentrate on the questions provided. Pull a card for each question. **Keep the cards face down until you are ready to review all of them.** This allows your subconscious mind to stay focused on the Sacred Intent and the flow of Higher Consciousness.

Shuffle and mix your cards. Keep your heart open and heart-energy extended to Source and through your cards. Then follow the Circle on the next page and pull a card for each question, starting with Number 1 and moving clockwise around the circle.
